Dear Sir:

The following remarks are offered in response to the Examiner's Office Action dated 04/21/2005. They are respectfully submitted as a full and complete response to that Action.

REMARKS

Reconsideration of the above-referenced application in view of the following remarks is respectfully requested.

Claims 1-22 are pending in this case.

The Examiner rejected claims 1-22 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the Examiner questions what is meant by the term "template". The Applicant uses the term "oxide electrode template"
